

ATTENTION ALL ALMSHOUSE RESIDENTS

Did you know – a dog has more right to his kennel than you have to your home?

Almshouse residents have been effectively outlawed since 1998. You need to win back your day in court and retrieve your Human Rights.

Join our campaign to have your almshouse *Licenses* upgraded to *Secure Tenancies*. Licenses are for lodgers, not lifetimes. Do you want to be nothing more than a lodger for the rest of your life, the roof over your head subject to the whim of others?

To find out more about the shameful insecurity of your tenure and what you can do about it, visit the website:
